Newspapers Monitoring Report at a glance

Mass Media in Bangladesh is always active to promote issues related to peoples' life. Though we are living in social media age but still mainstream media has very good command on socio-economic and political life in Bangladesh. Health is an issue related to life so all issues of human life are directly and indirectly associated with health issues. It has been getting due attention of media. Now Coronavirus related pandemic is the main health issue of media coverage in Bangladesh. It is fact that like other issues, Media Coverage on health issues has been giving us different dynamics of that and this are helping to generate clues for designing different plans and policies. Considering above scenario, as part of assignment of Bangladesh Health Watch, we have developed a monitoring report of *Prothom Alo*, *Daily Star*, *Samakal*, *Kalerkantho*, *New Age* and *Bangla Tribune*.

Prthom Alo is one of the leading Bangla Newspapers in Bangladesh in terms of readership and credibility. Other two Bangla newspapers-*Samakal* and *Kalerkantho*, they are credible with lesser readership compare to *Prothom Alo*. *Daily Star* is credible English with highest English readership. *News Age* is also credible with lesser readership compare to *Daily Star*. Within only online newspapers, *Bangla Tribune* has good readership and credibility. Each Newspaper has its own style of presentation for making better understanding of readers. Health is a regular coverage issue. But *Samakal*, *Kalerkantho* and *Daily Star* have special weekly publications on health issues only. These are *Daktar Bari* (Doctor House) of *Samakal*, *Daktar Achen* (There is a Doctor) of *Kalerkantho* and *Health* of *Daily Star*. *Prothom Alo*, *New Age* and *Bangla Tribune* are publishing special publication on health in their publication on lifestyle.

Main focus of health related special publications are making available information on how people can manage their health in a better way. So health tips and guidelines, different information on health issues, prescription on different health issues and Answers of readers queries are main issues in those special publications.

Those newspapers are doing Interactive Journalism in their online versions. So readers can get opportunity to interact with respective news organization for presenting their feedback and further information from their end on published items. *Prothom Alo* is getting regular more feedback from readers on their published items.

Online version of *Prothom Alo* runs Citizen Journalism initiative. Any interested person can send all types of write ups, photos and video. They are publishing selected write ups regularly. Majority published items of Citizen Journalism are related to corona virus during March.

Each Newspaper has published mainly two types of reports – information updates and in depth coverage. Official and unofficial sources are using by news organization for collecting information. Expert's opinion has different types of presentation such as report based on expert or experts' interview or interviews, full length interview and their opinion based on full length.

Here we have monitored daily each report, feature, editorial, post editorial and article, interview and experts opinion related to health issues published during March 2020 in the stated newspapers. Except *Bangla Tribune*, all five has both online and print versions. Each Online version has two presentations – real time updates and full newspaper as printed one. *Bangla Tribune* is an online newspaper and it has two online versions- real time updates and online daily newspaper. Two types of coverage, these are coverage related to coronavirus pandemic and other health issues. Board based issues under corona virus coverage are preparedness, health infrastructure, awareness, health services, health economy, health related economy- impacts and livelihood support for common people, challenges of health services and ways for addressing those challenges.

Each Newspaper has covered similar list of issues. We have compiled published items of each newspaper according to identified issues and selected representative published items for getting better understanding on full coverage scenario by avoiding repetition of similar items.

We have found 43 different issues covered by newspapers with 136 sub issues on Coronavirus coverage and 12 other health issues where 24 sub issues are there. The list issues are as bellow with link of respective publications; these links are available in the Annexure.

Daily Update on Coronavirus, preparedness and performance of health department were main focus of all six newspapers. Every media has tried to disclose information on lack and need of preparation for ensuring proper measures related to conronavirus in their own style. They always have been engaging respective experts (medical professionals, economists and other opinion leaders) to make inputs available for public awareness as well as formation of plans and required implementation. Newspapers have been presenting religious interpretation (mainly Islamic) for making understanding of the people those who are more inclined to religion. *Kalerkantho* has been doing this type of coverage regularly; other *Bangla* newspapers have been doing the same.

Identified Key Issues from newspapers monitoring are : 1. *Information on a plan for handling pandemic is available, which was developed in 2017 but spent money by doing nothing,*

2. Information on different Government Updates and Actions are available, 3. Public Health Services delivery outlets (i.e. Hospitals) were not ready with necessary equipments and logistics, 4. Govt. actions has started little late though they got enough time for preparation (outbreak of this virus in China in late of November in 2019), 4. Lack of coordinated efforts and actions, 5. No comprehensive plan is available, 6. Suffering of people in getting Public Health Services, 7. Sufferings of people in getting Private Health Services, 8. Shortage of PPEs and Test Kits, 9. Test Kit has invented by Bangladeshi scientists, 10. Govt. Fund allocation, 11. Voluntary Activities for helping people, 12. Economic Impacts and future actions, 12. Success Stories, 13. Human Stories related to health and livelihood issues, 14. Pro-people initiatives and 11. Other than Coronavirus issues are also covered,

Media has been doing awareness campaign by disclosing local and international scenario, guidelines and tips as much as possible covering maximum aspects for their readers. Different suggestions and policy prescriptions for better health services and recovering loss due to impact of this virus are also available here. Published reports, articles, editorial of all six newspapers have a strong focus on need of an Inclusive Comprehensive Plan for addressing Coronavirus issues for activating respective Govt. and Non Government actors in this regard. Interested party can use this monitoring report as a reference for future work.

Focus of Media Monitoring

It is a Media Monitoring Report on Health Issues with an objective to know media coverage dynamics for March 2020. Though health is multi-dimensional issue but during study period, corona virus related pandemic is the main health issue around the globe, as well as in Bangladesh. The Monitoring Report is based on coverage of 6 daily newspapers and news portal for March 2020, these are: Prothom Alo, Daily Star, Samakal, Kalerkantho, New Age and Bangla Tribune. Considering good audience and side by side credibility these have been selected in consultation with Bangladesh Health Watch/

Methodology

- We have read each report, feature, editorial, post editorial and article, interview and expert's opinion related to health issues published during this month in stated newspapers, and have compiled selected write-ups on a daily basis. Each news organization is active to update their portal in real time basis. So we monitor those also but our focus was daily publication only for this study.
- We have indentified core issue or message of each published item and have developed issue based storage and simultaneously we have developed a list of issues for each newspaper. Later we have developed a list of sub issues under each issue related to health. Now issue along with sub issue based compilation of the 6 newspapers are available here.

- Preparedness, health infrastructure, health related safety measures, awareness, health services, health economy, health related economy- impacts and livelihood support for common people, challenges of health services and ways for addressing those challenges. We have also looked into health issues other than pandemic also here.
- Later we developed a presentation of overall newspaper coverage scenario by selected items with links on Health Coverage for March 2020. So it is now a monitoring report for disclosing issues for further work side by side a comprehensive publication for all.

Newspaper Coverage Scenario of Health Issues

Due to unnatural situation, newspapers print copies are not reaching to most of readers but internet has been helping them to reach out to the maximum possible by their online publications. March started with major international news coverage but since second week of this month all of them have been turned into more coverage on local issues for marching with local pandemic reality. By this time, pandemic has become a major issue in public life in terms of loss of life and haphazard health service delivery. It is fact that all newspapers are performing everyday mostly by implementing similar coverage plans with similar issues. During information collection we have monitored everyday issue of those newspapers and gathered all in similar fashion. But *Prothom Alo* is little ahead among them in terms of coverage of diversified issues specially awareness building of people and monitoring policy makers on plans and performance. Every news organization has tried their best to do maximum for helping their readers by regular presentation of helpful information package (Experts Guidelines or Tips) everyday.

List of issues covered by those newspapers has given coverage scenario of them. We have divided this list into two – Coronavirus related coverage and other health issues. We have found 43 different issues and 136 sub issues on Coronavirus coverage and 12 other health issues where 24 sub issues are here. The list of issues is as bellow with link of respective publication; these links are available in the Annexure.

1. Issues covered by Newspapers

Links of Selected published reports, features, articles and editorials are available in annexure as reference.

Coronavirus related Coverage

1. Health Update

Coronavirus Situation

(Annex : 1-a,b,c,d)

IEDCR has been sharing updates on coronavirus situation in this country, this is the only source of institutional information in this regards. Sometimes the Health Minister participated in this update sharing programmes.

PPE & KIT Status

(Annex : 1-e)

Health Minister informed on 28 March 2020, "We started our preparatory work in the first week of January. We arranged screening and formed three committees at National, District and Upazila level. We arranged quarantine facilities. For two months before that, nobody asked about what preparations were being undertaken. We distributed 3, 00,000 pieces of PPE in different hospitals and another 5,00,000 pieces will arrive by April. Every day we are receiving 20,000-30,000 pieces of PPE, we do not need to worry about this. We have 45,000 kits in our hands and we have placed order for 85,000 more kits. There are 250 ventilators in this country and work is going on to set up another 300 units. So there is no need to publish news which can create confusion about our preparedness."

IEDCR Call Centre

(Annex :1- f)

On that day, the news of the first coronavirus infection in the country was published in the media. There are 16 calls every minute to find out about coronavirus.

Status of Returnees

(Annex :1- g)

From 16th February to 18th March, 4 lakh 39 thousand 953 locals and foreigners have come to Bangladesh by air, land and waterways in this one month

2. Test Facilities

Expanding Facilities

(Annex :2- a, b)

Test facilities will be available in multiple institutions. Health Minister Zahid Malek said the 8 new laboratories would be set up at Dhaka Medical College Hospital, Bangabandhu Sheikh Mujib Medical University and various hospitals in Dhaka and outside Dhaka.

Private Hospitals

(Annex :2- c)

Apollo Hospitals Dhaka informed the Daily Star that they too have a BSL-2 laboratory and can start doing Covid-19 tests as soon as the government allows testing in private facilities. Similarly, Labaid Specialized Hospital has a molecular lab adhering to BSL-2 and is eager to start testing for Covid-19. Also, ICDDR, B (International Centre for Diarrhoeal Disease Research, Bangladesh) has offered to help the government, BIRDEM General Hospital can also test for Covid-19 and has a BSL-2 laboratory.

IEDCR Capacity (Annex :2- d)

The IEDCR is now struggling to cope with the rising number of people who come for testing on a daily basis.

New Kit (Annex :2- e,f)

The Gonoshasthaya Kendra has developed a simple and low-cost testing for the detection of coronavirus. They have been allowed to import raw materials for making this kit.

Availability of Kit (Annex :2-g)

Bangladesh has received test kits from China by different sources. One of them was Jack Ma Foundation (a foundation run by Alibaba- an online marketing company in China)

3. Preparedness Management

Govt. Plan (Annex :3- a, b)

Prime Minister said, 'We have capacity to handle this coronavirus issues and no reason to worry'. Different respective Government officials also said, 'Emergency response plan is ready.'

Not performed as per plan (Annex :3- c)

According to Working Plan on pandemics like coronavirus, work was supposed to start in 2017. Work was not implemented as per plan, but the allocated funds were spent.

Accuracy of information (Annex :3- d)

Doubts arose in the minds of the people as accurate information was not disclosed. Director of IEDCR could not take people to a place of trust even after skillfully briefing the media and public. Journalists did not get a satisfactory answer as to why the coronavirus test is not being conducted in more than one center and why testing is so limited.

Weaknesses in preparation (Annex :3- e,f,g,h,I,j)

At this time, all concerned, starting from the government in Bangladesh, have got opportunity to observe the whole situation, and have got the time to prepare. But there are questions in various quarters about weaknesses in preparation and implementation plan.

Committee involving different ministries and agencies (Annex :3- k)

According to member advisory council of Preparatory Committee of WHO, there is need to form a committee involving different ministries and agencies. Any decision should be taken through this committee. IUDCR Director informed, "It is true there is no formal committee but decisions have been taken through Health Minister, Health Secretary and DG of Health Directorate. A plan for coronavirus is under preparation, committee formation will be part of the plan."

Lack of coordination (Annex :3- l)

Bureaucratic tangles and lack of coordination among government bodies pose a major challenge in implementing the government plan to tackle a potential coronavirus outbreak.

Officials for coordination (Annex :3- m)

Eight officials of the Ministry of Health have been given the responsibility of full-time coordination with the concerned districts of eight divisions of the country regarding corona. The health ministry issued the order on Thursday (March 12).

Meeting with ambassadors (Annex :3- n)

Health Minister Zahid Malek held an emergency meeting with ambassadors of 30 countries in Bangladesh on 10 March.

Different directives Mechanism (Annex :3- o)

There is non-coordination for issuing different directives related to coronavirus, sometimes directives are cancelled after being issued. But it is urgent to implement coordinated works for ensuring due health services in desired situation.

Lock down Plan (Annex :3- p)

Agencies involved in implementation of lock down have no prior discussion, preparation and planning, all agencies wait for instructions from the Health Directorate.

LGIs involvement (Annex :3- q)

Local Government, Rural Development and Cooperatives Minister, Md. Tajul Islam said, 'Committees have been formed at city corporation, municipality, district, upazila and union levels to prevent and combat the outbreak of corona virus.'

Preparedness of a university (Annex :3- k)

Preparedness of a university to protect its students and others is discussed in an article

Develop a most effective strategy (Annex :3- r,s,t)

There may be limitations in ability, but within these limitations, it is necessary to develop a most effective strategy. Social or development worker can play a role in preventing coronavirus.

SMS based health information (Annex :3- u)

*Under a self-reporting method, mobile users will get a short message (SMS) from their operators and in reply they will share some of their health information. All the 16.62 crore mobile phone users in the country will start getting SMS from this morning and they will be asked to make a call to *3332# free of charge. During the 90-second call in the form of interactive voice response (IVR), users will reply to five.*

4. Health Infrastructure

Readiness of Hospitals (Annex :4- a,b)

Not all hospitals are ready to treat coronavirus patients, 'As per the government decision, hospitals are in the process of adding emergency medical care facilities for patients infected with coronavirus.'

Though four hospitals have been declared for treating coronavirus patients, as of 29 March those are not ready with the necessary facilities. These are: Sheikh Rasel Gastroenterology Hospital in Mohakhali, Railway General Hospital, Mahanagar General Hospital and Mother and Children Health Hospital in Mirpur.

Treatment Facility

(Annex :4- c)

Health Minister informed 'there will be 10,000 beds across the country to treat and prevent' coronavirus'.

ICU Units

(Annex :4- d)

Inadequate intensive care facilities across the country remain a major concern in treating elderly Covid-19 patients who are deemed most vulnerable to the deadly virus, say experts and health officials. According to the Directorate General of Health Services (DGHS), there are 508 ICU beds in government hospitals and 737 ICU beds in private hospitals. In the capital, only 10 ICU beds are available for coronavirus patients at Kuwait Bangladesh Friendship Hospital. The process of installing another 16 is underway, Aminul Hasan, director of Hospitals and Clinics of DGHS.

WASH facilities in Healthcare Centres

(Annex :4- e)

In a government study conducted in Kushtia, Jhenidah, Khulna and Jashore, it was found that over 98 percent healthcare centres in the districts have no proper water, sanitation and hygiene (WASH) facilities.

Ventilators availability

(Annex :4- f)

Inadequate intensive care facilities across the country remain a major concern in treating elderly Covid-19 patients who are deemed most vulnerable to the deadly virus. Labaid Limited Managing Director AM Shamim said, 'Private hospitals will be able to install 1,000 ventilators in four to six weeks.'

Health Screening at Airport

(Annex: 4- g)

Despite growing concern over the spread of coronavirus, health screening of incoming travelers remains lax at the country's five busiest land ports. The situation seems similar at the two international airports in Chattogram and Sylhet. There was no archway thermal scanner in any of the five land ports -- Hili in Dinajpur, Sonamasjid in Chapainawabganj, Burimari in Lalmonirhat, Akhaura in Brahmanbaria and Benapole in Jashore. As the passengers were walking towards the airport's health desk, some of them looked puzzled when officials, standing next to the thermal scanner, asked them to submit filled-in health declaration forms.

Availability of Thermal Scanner

(Annex :4- h,i,j)

Thermal scanners have been installed at three airports and one sea port -Mongla as a preventive measure of coronavirus.

Dedicated Hospitals

(Annex :4- k,l)

Bashundhara Group has given the government the International Convention City Bashundhara (ICCB) in the city's Kuril area to be converted into a hospital to treat Covid-19 patients. Akij Group is building a 301-bed hospital in Dhaka to treat patients infected with coronavirus.

5. Health Awareness

Dos and Don'ts

(Annex :5- a)

Coronavirus: Dos and Don'ts was written by Dr. Tanjina Hossain, Associate Professor of Greenlife Medical College.

Nothing to panic (Annex : 5- b)

Dr. ABM Abdullah, Former Dean, Faculty of Medicine, Bangabandhu Sheikh Mujib Medical University said, 'According to the latest data, the death rate in coronavirus is 3.4 percent. So there is nothing to panic about. But we have to be careful. Proper adherence to state rules will help prevent the spread of the virus'.

Risks and measures for pregnant women (Annex :5-c)

Dr. Shaheina Begum, Consultant, Gynecology and Obstetrics Department, BRB Hospital Dhaka presented risks and measures for pregnant women during this pandemic.

Soap is better than sanitiser and Right Masks (Annex :5-d,e)

Soap is better than sanitiser for addressing hygiene issues related to coronavirus. Sukhdeb Kumar Biswas, Textile Engineer explained dangers of using the wrong kind of masks. According to him, maximum masks available in local market are not healthy and pose a danger for human health.

Right and suggestive information (Annex :5-f)

Unicef actively working with WHO, Govt. Agencies, Facebook, Instagram, Linkdin and Tictok for addressing misinformation and to make available right and suggestive information to the people

WHO Guidelines (Annex :5-g)

WHO guidelines on preventives measures in work place

Awareness campaign (Annex :5-h,i)

Prime Minister Sheikh Hasina urged celebrities and imams to be engaged in campaign for building awareness about coronavirus.

BRAC has engaged folk artist Momtaz to launch a song as part of its effort to sensitize mass people about the abiding rules of social distancing, hand washing and respiratory hygiene to tackle coronavirus pandemic. BRAC has also paired with Kuddus Boyati, another folk singer. The composition has already attracted a large number of audiences, while being played around on megaphones in cities, towns and villages across the country.

6. Quarantine Management

A bunch of reports have been published on this issue. Here we have presented those reports which have independent value and help in understanding the overall scenario for both - home and institutional quarantine. Side by side, challenges related to both have been highlighted in these reports, which will be helpful for developing any related policy.

Home Ministry Directive (Annex :6-a)

Home Minister said, 'If anyone violates quarantine then stringent actions will be taken'.

Mismanagement in filling up health declaration (Annex :6-b,c)

Mismanagement in filling up health declaration form in airports and anybody coming from China, South Korea, Italy, Singapore, Iran and Thailand have to stay in quarantine.

High Court Directives (Annex :6-d)

The High Court has issued several directives to ensure quarantine of returnees. A preliminary hearing of the writ was held on Thursday (date).

Struggling to find expatriates (Annex :6-e)

The health department, local administration and people's representatives are struggling to find expatriates who have returned to Narayanganj.

Violation of Quarantine codes (Annex :6-f,g)

But one person did not follow the rules and moved around freely instead of staying at home. Upon receiving the news, police and health department officials met him and tried to convince him. Angered by this, he abused them. The expatriate was later fined Tk 10,000 by a mobile court.

Seal on all returning passengers' hands (Annex :6-h)

Seals are being put on all returning passengers' hands to prevent coronavirus. Immigration police are working to put seals at Hazrat Shahjalal in Dhaka, MAG Osmani in Sylhet and Shah Amanat International Airport in Chittagong and land ports of the country.

Curious people gathered to see an Australian expatriate in home quarantine in Nabiganj upazila of Habiganj.

Protest against Home Quarantine Centre (Annex :6-i)

A section Residents of RAJUK Uttara Apartment Project are protesting against not having a Home Quarantine Centre in that residential area.

Govt. Guidelines (Annex :6-j)

A govt. guideline on home quarantine is available here.

7. Govt. Measures

Fixation prices of Hand sanitizers (Annex :7)

Directorate of Drug Administration has fixed up prices of hand sanitizers of six companies: SKF Pharma, ACI, Incepta, General Pharma, Greenland Pharma, Sqaure Pharma and Opsonin Pharma

8. Health Professionals Safety

Lack of personal safety equipments (Annex :8)

Doctors at 55 district and 15 upazila hospitals have expressed concern about the lack of personal safety equipments. Isolation Wards are not ready.

9. Local Perceptions

Risks associated with expatriates (Annex :9)

People of Sunamganj learnt that coronavirus has a link with expatriates. So they are now panicking. Upazila Health Office already has taken measures for minimizing that risk.

10. Fund Allocation

Govt. Fund Allocation (Annex :10-a,b)

The government has allocated Tk 50 crore in the healthcare sector to prevent the spread of coronavirus in the country on 10 March 2020

The Health Ministry received an allocation of Tk 200 crore in additional funds from the finance ministry for taking necessary measures to contain the spread of coronavirus in the country and to treat patients.

11. Legal Issues

Legal remedies for price hike (Annex :11)

Legal remedies for increasing price and crisis in Corona by Law Analyst and Researcher

12. Rumour and Actions

Spreading rumors (Annex : 12-a)

A Chattogram court yesterday granted a three-day remand for quizzing Dr Iftekhar Adnan, who was arrested by police on Saturday night for spreading rumors about novel corona virus on social media through an audio clip.

Drives for preventing rumours (Annex : 12-b)

Local administration is working to prevent rumors

13. Market Management

Penalty for higher price for masks (Annex : 13)

Mobile Court fined three drug stores for charging higher price for masks.

14. Religion

Friday prayers and congregations in Mosques (Annex : 14-a)

Friday prayers and congregations in Mosques are being discouraged in many Muslim and non-Muslim countries around the world due to corona virus. Because it is one of the causes of spreading virus. Islamic Foundation is also issued similar instruction. Islamic interpretations of different Thinkers presented here for clarification of people.

Islamic Foundation Directives (Annex : 14-b)

The Islamic Foundation on Monday issued some guidelines over various issue, including offering namaz and maintaining people's safety at mosques, and the funeral of coronavirus patients.

Islamic interpretation on infectious diseases (Annex : 14-c)

Islamic Thinker presented here Islamic interpretation on how to control infectious diseases.

15. Legal Actions

Rigorous imprisonment (Annex : 15)

A mobile court has sentenced two men to two years rigorous imprisonment for selling coronavirus 'antidote'.

16. Work from Home

Work from Home at practice (Annex : 16)

Grameen Phone, Bangla Link and Unilever have issued work from home directives for their employees due to coronavirus pandemic.

17. Armed Forces

Quarantine centres Management

(Annex : 17-a)

The army has been given the responsibility of two quarantine centres i.e. at the Ashkona Hajj Camp near Hazrat Shahjalal International Airport and the flat project area of RAJUK in Uttara Diabari, Dhaka to prevent the spread of coronavirus.

Assist Local Administration

(Annex : 17-b)

Armed forces are being deployed from Tuesday (March 24) to maintain social distancing. They will assist the civil administration in maintaining social distancing and precautionary measures in the divisional and district cities.

18. Preventive Measures

Preventive Measures in a Police Station

(Annex : 18-a)

Sherpur Police of Bogura has taken an exceptional initiative to raise awareness about coronavirus. Hand washing facility has been set up at the entrance of the police station. A police constable is in charge there. He is allowing the people who come to the police station to enter after washing their hands.

Disinfection Drives by Bus Owners

(Annex : 18-b)

Bus owners in Dhaka have decided to keep buses and terminals clean and to serve hand sanitizers and tissues at the counters of long-route buses in the capital to prevent coronavirus infection.

Self driven Preventive Measures

(Annex : 18-c)

One of uber motorcycle rider is Syed Imran Ali. He has been handing sanitiser first to the passenger for sanitizing hands before picking him up on the motorcycle. Then he has been giving tissue too to that passenger. He has been using tissue around the passenger's head and put on a helmet. Before that, he cleaned the helmet and seat with Savlon. Imran did not pick up passengers in the car before disinfecting.

Concern about Dirty Currency Notes

(Annex : 18-d)

The World Health Organization (WHO) has warned that corona virus can spread from dirty banknotes. Doctors in the country also say that a dirty banknote is a germ factory. These contain viruses and bacteria. So even with this note people get infected with contagious diseases. However, Bangladesh Bank still has no problem with the issue. Authorities claim that the matter is not being considered at the moment, but as per the need, dirty, torn and old notes are removed from the market.

19. Legal Issues

Legal Provisions

(Annex : 19)

The Health Directorate has issued a public notice on law enforcement in the country in the wake of declaring coronavirus a pandemic (global epidemic). The public notice said that the various sections and sub-sections of the Infectious Diseases (Prevention, Control and Eradication) Act-2018 may need to be enacted.

20. Sex Worker

Restricted movement

(Annex : 20-a,b)

To prevent coronavirus infection, local administration has banned travel sex village in Kandapara in Tangail from 7pm on Friday (date) to 31st March. At this time no sex worker can go out of the village. Police has banned travel to the sex village of Daulatdia in Rajbari for 20 days due to the risk of coronavirus infection.

21. Mental Health

Issues related to Mental Health

(Annex : 21-a,b)

Everyone is suffering from anxiety about coronavirus infection. That is normal. This anxiety creates additional stress on the mind. Symptoms of panic, unreasonable anger or depression may also occur. But in dealing with any danger, I need patience, responsible behavior and courage. How should you react at this time, how do you rely on your family and relatives and fulfill your responsibilities towards the society?

Coronavirus is a completely new and difficult experience for people around the world. The novelty of the subject, the horror, the aggression, has bewildered people of all classes and professions all over the world. Although coronavirus attacks mainly harm physical health, we are unknowingly falling into mental health risks.

22. What we need to do

National Strategy

(Annex : 22-a)

To develop a national strategy containing short, medium and long-term action plan to manage and steer the recovery process from socio-economic setbacks being caused by the extraordinary national crisis due to coronavirus situation.

More tests

(Annex : 22-b)

More than eight lakh people have called the hotline. This proves that eight lakh people have felt the need for testing. If there was an opportunity for these, these people would test at their own expenses.

Cautions for addressing financial crisis

(Annex : 22-c)

We could not prepare in advance for this crisis. It's clear. We should not make the same mistake in case of possible economic crisis. It is necessary to determine what kind of assistance can be given to specific sectors. It can be financial incentive, it can also be policy support'.

Coronavirus Prevention: How prepared are schools?

(Annex : 22-d)

Hand washing arrangements for children inadequate

Bangladeshi expatriates living abroad

(Annex : 22-e)

Bangladeshi expatriates in different countries fear bleak days ahead. Many of them left with no jobs and stuck at home without adequate supply of daily essentials.

Seeking support from other countries

(Annex : 22-f)

Bangladesh has sought support from other countries to provide safety and care to the Bangladeshis residing abroad while assuring that foreigners in Bangladesh would be taken care of during the global coronavirus outbreak.

Rohingya camps

(Annex : 22-g)

Lack of medical facilities, extremely unhygienic living conditions, and population density of the Rohingya camps in Cox'sbazar can cause havoc in case of a virus outbreak.

Support from Development Partners

(Annex : 22-h)

The government is seeking funds from development partners to help the health ministry combat the spread of the novel coronavirus.

Dhaka slums*(Annex : 22-i)*

Visits to the Dhaka slums and talking to residents showed that the awareness-building programmes had a long way to go before reaching them.

Strengthening drives for prevention*(Annex : 22-j)*

The government should strengthen its preparations for screening, testing, isolation, and treatment of people infected and affected by the coronavirus. Also, Bangladesh should allocate special funds to reduce the many associated risks of an outbreak. Otherwise, the new coronavirus may potentially inflict much more damage than the dengue outbreak did in 2019.'

Collective plan*(Annex : 22-k)*

The government would be proactive in coordinating among all the private and public initiatives and make a collective plan to fight the pandemic.

Minimisation of risks*(Annex : 22-l)*

The risk will be reduced if the patient is identified. In the case of quarantine, there is a lack of coordination, so the risk is increasing.

Noted citizens concerns*(Annex : 22-m)*

63 noted citizens want the government to adopt a master plan in coordination with experts, environmentalists, physicians, civil society members and ministries immediately to address the crisis.

Prisons Management*(Annex : 22-n)*

The state of overcrowding in prisons will affect hygiene and sanitation inside the prison.

Need of timely proper drives*(Annex : 22-o)*

We need to prepare for any eventuality. The world is in great flux. And we need to determine our future in that motion. We don't have much time.'

Stop spreading misinformation*(Annex : 22-p)*

It is important that the public authorities ensure that they do not spread misinformation, and governments should abandon intentional propaganda or disinformation campaigns. Governments should ensure strong protections for whistleblowers. Moreover, the authorities need to protect those raising concerns about government misconduct or policy failures relating to COVID-19.

Covid-19 and the Rohingya refugee crisis*(Annex : 22-q)*

Around a million Rohingya in the refugee camps in Cox's Bazar, along with aid workers, are likely to be among the worst sufferers if coronavirus spreads in the region, feared experts.

Open door for research*(Annex : 22-r)*

The Government of Bangladesh should immediately open the door for research on physiological and chemical reactions, including rapid genome sequencing of patient samples.

Mistake in testing*(Annex : 22-s)*

100% repatriation should have been tested. The repetition of this mistake must be stopped.

Quarantine Codes and Political Activities*(Annex : 22-t,u)*

Despite various instructions to avoid self-quarantine, quarantine and socialization, the ministers are working in groups and meetings, rallies and elections are all in force.

Actions for Livelihood

(Annex : 22-v)

No action has been taken to ensure the livelihood of millions of workers and employees without announcing some concessions on loan repayment only.

Projected Budget for dealing with novel coronavirus

(Annex : 22-v)

Adequate preparation for dealing with the novel coronavirus (Covid-19) in Bangladesh requires about US\$ 387 million (approximately Tk 3,207.42 crore).

Virus free villages virus free is a big challenge

(Annex : 22-w)

The challenge is to make villages virus free.

23. Women

Need to address women issues

(Annex : 23-a)

Experts believe that women are more likely to be affected by this new epidemic. Health, economic, family - women can be victims of all aspects. In this situation, women are not sitting in the country and abroad to prevent corona, they are taking various initiatives.

Women tortured

(Annex : 23- b)

A housewife has been attacked in Noakhali's Companiganj upazila for allegedly quarantining a man returning from Dubai.

Working women hostels

(Annex : 23-c)

Confusions are in working women hostels.

24. Volunteerism

Individual Initiative

(Annex : 24-a)

A woman is making sanitiser on her own initiative

Organised Initiative

(Annex: 24-b,c)

Youth organisation has been disinfecting public transport in capital.

Students' Initiative

(Annex : 23-d)

Students' initiatives are to deal with corona virus.

25. Serving the Poor

Healthy Masks

(Annex : 25-a)

Biodegradable masks being made from scraps at RMG factories for free distribution in 64 districts.

Masks for poor

(Annex : 25-b)

An initiative of a local for making available masks for poor.

26. Corporate Response

Surgical masks and hand sanitizers

(Annex : 26-a)

Safety Package

(Annex : 26-d)

Beximco Pharmaceuticals will provide personal protective equipment (PPE), medicines and test kits worth Tk 15 crore to health workers in two phases to combat coronavirus.

27. Govt. Measures

Bangladesh Bank for availability of drugs and equipments

(Annex : 27)

A statement from Bangladesh Bank said, "It has been decided that the advance payment of US\$ 500,000 or any other amount of foreign currency without repayment guarantee for the import of emergency medical equipment to prevent coronavirus (Covid-19) will be effective immediately." The decision was made to import coronavirus-related life-saving drugs, medical equipment and other necessary medical equipments.

28. Livelihood Support

Ministry of Relief and Disaster Management

(Annex : 28)

The Ministry of Relief and Disaster Management has allotted 200 to 500 tons of rice in each district. And two to five lakh taka has been given in cash. The assistance has been given considering the size and population of the districts.

29. Guidelines

Guidelines for burials

(Annex : 29)

The Islamic Foundation has called for following the World Health Organization's (WHO) guidelines for burials of people who have died of coronavirus infection

30. Success Story

How China, Japan and Korea won

(Annex : 30-a)

Italy-Iran is not as successful as China, Japan, Korea

China success story

(Annex : 30-b)

What China has done is what the world cannot do

31. Govt. Actions

500-member physician committee

(Annex : 31)

A 500-member committee headed by the Bangladesh Medical Association (BMA) was formed at the behest of Prime Minister Sheikh Hasina.

This committee of physicians will be in charge of liaison with the health department or with those in need.

32. Local Model

Peoples driven System

(Annex : 32)

Quarantine themselves to prevent corona in Tolarbagh (Dhaka, first corona virus related death in this area)

33. Rural People

Leading role of Religious Institutions

(Annex : 33-a)

Since the people of the village are a little more religious, the heads of religious institutions will be able to play a leading role in making them aware. The guidance of imams or priests from the administration to raise awareness in the village will bring good results. There is still time to raise awareness about the dangers of coronavirus in urban as well as rural areas.

Issues of rural life

(Annex : 33-b)

None is obeying the restrictions of not touching the nose and mouth with dirty hands and repeatedly touching them. As a result, there is a fear of a big disaster for this large population of the village.

34. City Corporation

Disinfection activities

(Annex : 34)

Disinfection activities are being carried out at the initiative of North City Corporation (DNCC)

35. How to protect yourself from traps

Tips on protecting traps

(Annex : 35)

The BBC's investigative journalism division has scrutinized several claims to prevent the reality check infection. Here are some common coronavirus issues.

36. Innovative Initiative

UNO Initiative

(Annex : 36-a)

Khaleda Khatun, Upazila Nirbahi Officer (UNO) of Kaukhali Upazila of Pirojpur has taken a creative initiative. He is giving books as gifts to the returnees who are in home quarantine.

Villagers Initiatives

(Annex : 36-b)

Those who are entering the village are being allowed to enter after confirming their identity and needs. The stranger is then allowed to enter the village only after spraying the whole body with disinfectant.

37. Research

University Labs

(Annex : 37)

Our universities have almost all kinds of equipment to work on molecular biology. And they are comparable to the world's largest laboratories.

38. Misdeed

Punishment for misdeed

(Annex : 38)

A mobile court has sentenced a man to six months in jail in Mymensingh's Nandail upazila for allegedly inventing a drug to prevent coronavirus infection

39. Hygiene Status

Country Hygiene Status

(Annex : 39)

40. Local Government Initiative

Municipality Initiative

(Annex: 40)

The Singra Municipality of Natore has launched 'Home Service' to meet the demand of the people for daily necessities.

41. Health Services

Self styled Safety Measures in Hospital

(Annex: 41-a)

A rope has been tied at a certain distance in a room of the hospital. Physician was at one end of the rope, patient at the other end. The doctor is making sure of the identity before listening to the patient's problem. The doctor is going to the patient and giving the prescription according to the problem after confirming whether the patient has returned from abroad or was in contact with someone returning from abroad.(Mymensingh Medical College)

Present Status of Patients in and around Hospital

(Annex: 41-b)

Admission to Hospitals: Patients left in quandary-Many of them fear being turned away by hospital staffers or contracting the novel coronavirus

Why people are staying away from treatment

(Annex: 41-c)

Closure of Private Hospital

(Annex: 41-d)

The Intensive Care Unit (ICU) and High Dependency Unit (HDU) of a private hospital in Chottogram has been closed down, after a patient died from pneumonia there three days back.

Business ethics of Private Hospitals

(Annex: 41-e)

Business and ethics must go hand in hand for private hospitals

New Law for Private Hospitals

(Annex: 41-f)

New law underway to improve healthcare quality at private hospitals

Private practice of Doctors

(Annex: 41-g)

Patients suffer as most doctors stop private practice

Tea Garden workers

(Annex: 41-h)

Fears over Coronavirus: 20,000 tea workers go on work abstention in Sylhet

Health Care support by Awami League

(Annex: 41-i)

Awami League's sub-committee on health has taken the initiative to provide the opportunity to get health care through telephone at home.

42. Human Story

An Ambulance driver of a hospital

(Annex: 42-a)

An ambulance driver of an upazila health complex in Kishoreganj contracted fever and cold. Authorities then gave him three days off. After getting leave, he went to Tarail Upazila Health Complex of the district. The hospital authorities kept him in quarantine as he was suffering from fever and cold. The news reached the locals. He is currently in quarantine at the hospital.

Death without treatment

(Annex: 42-b)

The ambulance rushed to the hospital in 18 hours, then died without treatment

Suspicion of Corona (Annex: 42-c)

Left him at the bus stand in suspicion of Corona, but no one approached him

Symptoms detected fate of a dead body (Annex: 42-d)

Symptoms of corona, so such burial

Unfortunate Story of a woman (Annex: 42-e)

The old woman lives alone in quarantine after the death of her husband in Corona

43. Q and A

Full of answers of different Queries (Annex: 43)

11 Questions and Answers by BBC on coronavirus related issues as a part of raising awareness of people

Other Health Issues

A. Hygiene management

Hygiene management in hospitals (Annex: 44-A.a)

Collapse of hygiene management in hospitals in Bangladesh

Hygiene Corner for Girls (Annex: 44-A.b)

An initiative has been taken to set up Nandini Hygiene Corner in 305 secondary schools. Sanitary napkins, first aid and iron pills have been kept there. There is also a basket with a lid. The cost of setting up this corner will be borne by the Upazila Administration and the local Union Parishad.

Real status of Sanitary Napkins (Annex: 44-A.c)

Sanitary napkins still unaffordable for a majority

B. Community Vision Centre

Treatment of eye patients for only three taka (Annex: 44-B.a)

Community Vision Centers for eye treatment have been set up in 20 upazilas of eight districts around Gopalganj district through Sheikh Fazilatunnesa Mujib Eye Hospital.

Revival of community clinics (Annex: 44-B.b)

Even three years ago, the environment of 18 community clinics in Tahirpur Upazila, Sunamganj, was different. Now people are getting necessary health care near home

C. Measles

Status and Government Actions (Annex: 44-C.a)

Measles and rubella infections continue to increase, Government to start vaccination on March 18

Vaccines in Hill Districts (Annex: 44-C.b)

Why are the hills excluded from the measles vaccine?

D. Dengue

Status (Annex: 44-C.a)

10 dengue patients undergoing treatment in city

Judicial probe committee Report (Annex: 44-D.a)

Last Year's Dengue Outbreak: Both Dhaka North City Corporation, Dhaka South City Corporation partly negligent- Finds judicial probe committee

Mosquito Control Activities (Annex: 44-D.b)

Mosquito Control Activities: DNCC inspection drives continue

E. Health Complex

Sorry state of a Health Complex (Annex: 44-E.a)

20-Bed Hospital in Sunamganj: Left empty for 6 years

Shortage of medicines (Annex: 44-E.b)

There is a severe shortage of medicines in the outpatient department of the 250-bed General Hospital in Jashore

Shortage of physicians (Annex: 44-E.c)

Dinajpur 250-bed Hospital: Medical services are being disrupted due to lack of doctors

Logistics Problems (Annex: 44-E.d)

Doctors Tarash Health Complex in Sirajganj are in crisis, the operating theater is closed, X-rays and ECGs is out of order, two ambulances are out of order and an ultrasonography machine is missing. Along with that there are pictures of various irregularities

F. Kidney diseases

Hope for Kidney patients (Annex: 44-F.a)

Most kidney diseases are curable

Need affordable treatment (Annex: 44-F.b)

Over 20m patients with kidney diseases, less than 10% can afford treatment

G. Tuberculosis

Tuberculosis Status (Annex: 44-G)

World Tuberculosis Day: Tea workers exposed to TB- 3,252 suffered from the disease in Sylhet, Habiganj, Moulvibazar last year

H. Occupational health

Health hazards of different professions (Annex: 44-H.a)

Occupational health of goldsmiths warrants early attention

Health Hazards of Stone Workers Health (Annex: 44-H.b)

I. Corruption

ACC drive against a Hospital Director (Annex: 44-I)

The Anti-Corruption Commission (ACC) has filed a case against Uttam Kumar Barua, director of Shaheed Suhrawardy Medical College Hospital, and Aftab Ahmed, owner of a business called Messrs. ASL. Allegations of corruption amounting to around Tk 13 crore 16 lakh have been leveled against them in the two financial years.

J. Paperless Information Management

Paperless information Management (Annex: 44-J.a)

The paperless management of information on family planning, maternal and child health and reproductive health services in Tangail district has launched

Database of patients

(Annex: 44.b)

Having a database of all the information of the patients

K. Mother Health Care

Maternal Health Care for New Mothers (Annex: 44-K)

'The Two Hour Job' (This company provides employment opportunities to women who cannot work outside the home for various reasons) on New Maternal Health Care

L. Sudden Sickness

Unknown disease (Annex: 44-L)

Twenty-nine female workers of a wig factory in Nilphamari have fallen ill and been admitted to Sadar Adhunik Hospital.

2. Publication Overview

All Six have published regular reports, special reports, articles and opinions and editorials, and they have also covered national, local and international news. Nowadays outbreak of corona virus and number of loss of human life have captured major space of a newspaper by sharing regular updates, awareness building messages, country specific learning including plan and implementation, achievements and challenges, policy issues and future guidelines. All of these stated aspects were available in different types of presentation formats in six newspapers. Reality of life due to this pandemic has included in their publication list

Prothom Alo, Kalerkantho and Samakal are mainly Bangla Newspapers but each of them has English version also. Similarly *Daily Star* is mainly an English daily Newspaper, it has Bangla version also. Online coverage has focus on real time updates. But 5 newspapers, except *Bangla Tribune*, are making available online their printed versions as it.

Coverage of Health Issues

All six have health issues in their regular coverage plan. But *Samakal, Kalerkantho and Daily Star* have special weekly publications on health issues only. But These weekly publications are *Daktar Bari* (Doctor House) of *Samakal*, *Daktar Achen* (There is a Doctor) of *Kalerkantho* and *Health* of *Daily Star*. *Prothom Alo, New Age and Bangla Tribune* have been publishing special publications on health in their special publication on *lifestyle*.

Main focus of health related special publications are making available information on how people can manage their health in a better way. So health tips and guidelines, different information on health issues, prescription on different health issues and answers of queries are main issues in those special publications. Coronavirus related issues have captured maximum space of those special issues also.

- Every media has tried to disclose related information on lack and need of preparation for ensuring proper measures on coronavirus in their own style. They always have been engaging respective experts (medical professionals, economists and other opinion leaders who have knowledge from global scenario and have ability with a position to share those knowledge and experiences) to make inputs available for public awareness as well as formation on plans and required implementation.
- Newspapers have been utilizing religious leaders for creating awareness among people who are more inclined to religion by presenting religious interpretation of this pandemic such as how to keep them safe from this type of pandemic as per Islamic norms. *Kalerkantho* has done this type of coverage regularly; other Bangla newspapers have done the same.
- Opinions of designated leaders are available during this period in all six newspapers who presented their knowledge, leanings and thoughts, they are Dr. Muhammad Yunus, Dr. Zafarullah Chowdury, Dr. Muhmamd Zafar Iqbal, Dr. Abul Barkat, Dr. Badiul Alam Mazumder, Dr. ABM Abdullah, Dr. Nazrul Islam, Dr. Hossain Zillur Rahman, Journalist Kamal Ahmed, Mahfuz Anam and many medical professionals.

Interactive Journalism and Citizen Journalism

Interactive Journalism

All six newspapers have been trying to do Interactive Journalism in their online versions. So readers can get opportunity to present their feedback and further information from their end on published items.

Prothom Alo are getting regular more feedback from readers on their published items. Here is a seven days feedback status of readers as per highest number of feedback as below:

Date	Headline	Total Number of feedback
25 March 2020	□□□ □□□□ □□□ □□□□ □□□□□□□□ □□□□□□□□	34

	□□□□ Bangladeshi youth sending kits from China by his own money	
26 March 2020	□□□□□□ □□□□□□□ □□□□□□□ □□□□ □□□□□ □□ Crisis of Safety Dress	9

30 March 2020	<p>Experimental online classes start in Rajshahi University</p>
31 March 2020	<p>Relief distribution maintaining social distance</p>

3. Summary Observations

A list of identified key issues related to all published items is as below:

Key Issues

- Information on a plan for handling pandemic is available, which was developed in 2017 but spent money by doing nothing
- Information on different Government Updates and Actions are available
- Public Health Services delivery outlets (i.e. Hospitals) are not ready with necessary equipments and logistics
- Govt. actions has started little late though they have got enough time for preparation (outbreak of this virus in China in November 2019)
- Lack of coordinated efforts and actions
- No comprehensive plan is available
- Sufferings of people in getting Public Health Services
- Sufferings of people in getting Private Health Services
- Shortage of PPEs and Test Kits

- Test Kit is invented by Bangladeshi scientists
- Govt. Fund allocation
- Voluntary Activities for helping people
- Economic Impacts and future actions
- Success Stories
- Human Stories related to health and livelihood issues
- Pro-people initiatives
- Other than Coronavirus issues are also covered

Newspapers have been doing awareness campaign by disclosing local and international scenario, guidelines and tips as much as possible. Different suggestions of opinion leaders for better health services and recovering loss due to impact of this virus are also available in those publication related to health. We have found a common voice on need to develop an Inclusive Comprehensive Plan for strengthening drives by activating all of respective stakeholders.

ANNEXURE
